

WEALTHY AFFILIATE HAS IT ALL

Today as I was working on a new article for my website, it came to my mind how wonderful wealthy affiliate truly is. This is a training platform that has it all, every little step that needs to be taken in order for one to be successful with internet or affiliate marketing is taught on this outstanding training platform. It is absolutely nothing at all that is left out, any question in a person mind, that's part of this community can and will be answered. With only true facts to back up the answer or training, it doesn't matter where one may be in their journey, the real help is there.

The only thing that one needs to bring with them, when they become a part of the wealthy affiliate community, is dedication to their dreams, a will to succeed, and a mindset of not ever giving up no matter what. And there is never any pressure on the pace that a person wants to learn. I was a dinosaur, with computers, and I really did not know anything at all about internet or affiliate marketing. I just knew in my heart, this was the way of the future, and the future is now. And I'm sure, I was much slower than most to understand what was being taught, however, the staff of wealthy affiliate was patient with me and work with me at my pace, and because of that, I succeeded. My dreams became a reality.

This is the third article that I have written concerning wealthy affiliate in the past 7 days, I have never written about wealthy affiliate this often in a whole month since I've been a part of wealthy affiliate, April 2018. So I ask myself, why am I writing about welfare affiliate so much, the answer came to me. I am extremely upset with what I see going on, with Facebook. What I am talking about is, all of these self-proclaimed marketing gurus, that are tricking people in thinking that they know the way, that they know what they're talking about when they really don't.

I have checked out many of them, became a part of their groups, to see what they were actually pitching, and the majority of them, at the end of the day, they are talking people into, either hiring them as a coach, or buying a training course or purchasing something that they don't really need. And this, excuse my language, pisses me off. These self-proclaimed marketing gurus, are hustling and hurting so many people, leading them down the wrong roads, to acquire success. I was ripped off myself, once in 2017 and 2 months before I join wealthy affiliate in 2018, I received nothing but empty promises, and lead down a dead end alley with my pockets empty, and my hopes destroyed.

I absolutely refuse to be quiet any longer, yes there going to be a few people upset at me, however, I know I'm doing the right thing. I sincerely honor the friendships that I have on social media platforms, and because I am a real friend, I will not allow them to be ripped off, lied to, took an advantage of, without me at least letting everyone know the truth. If I didn't, I honestly couldn't live with myself. One must have morals and standards, and not set idle when he or she sees someone wronging other people, when it is a better way. And today, I'm going to introduce you to a better way. With far less money coming out of your pocket, and still receive the very best training on this planet concerning internet and affiliate marketing.
